Projects

CountriesAPI | *HTML, CSS, ReactJS*

GitHub

- Developed a responsive single-page application (SPA) using React to fetch, parse, and display dynamic data from a third-party REST API.
- Managed component state and lifecycle side effects using React Hooks (useState, useEffect) to implement real-time search and region-based filtering.
- Configured client-side routing to enable seamless navigation between the main dashboard and dynamic detail pages for individual countries.
- Structured the user interface utilizing modern CSS layouts (Flexbox and Grid) to ensure cross-device compatibility and a polished user experience.

Technical Skills

Programming Languages: JavaScript

Front-end Tech: HTML5, CSS3, ReactJS, Redux

Interpersonal Skills

- Collaborative Team Player
- Leadership & Project Ownership
- Thrives Under Pressure
- Quick Learning
- Problem Solving
- Adaptability

Education

Indian Institute of Science, Bengaluru

M.Tech : Materials Engineering

August 2022 - August 2024

CGPA : 8.10

Shroff S.R Rotary Institute of Chemical Technology, Ankleshwar

B.E : Chemical Technology

July 2017 - July 2021

CGPA : 9.67
